The name of the Society be **"Assam Livestock Development Agency (ALDA)"**

**2. The Office of the Society is :**

- 2.1 The office of the Agency shall be situated at Guwahati, in the State of Assam.
- 2.2 The address of the Agency shall be Animal Husbandry & Veterinary Campus, Khanapara, GUWAHATI, PIN Code : 781022, Assam

**3. The Objects for which the society is establish are:**

- 3.1 The objects of the Agency shall be to encourage, promote and carry out viably, all activities to improve the breeding and management of livestock, particularly cattle, buffalo, sheep, goat, pig, poultry; and to enhance livestock production and productivity throughout the territory of the state of Assam, leading to higher farm incomes and better quality of life for livestock farmers; gender sensitive, ecology - friendly and environmentally sustainable.
- 3.2 Advice and assist the state government in overall restructuring of the institutional set up under them dealing with breeding and development of livestock, their production and productivity; and help establish appropriate new institutions to maximize returns on investments already made on livestock breeding infrastructure state wide.
- 3.3 Evolve and orchestrate along with the state government, livestock breeding programmes in the state, for continuously increasing output of all livestock products, co-products and by-products like milk, meat, farm power, draught, hair, wool, skin and hide, on the basis of long term, area specific, policies, directed towards optimal resource utilisation and sustainable animal agriculture.
- 3.4 Promote, organise and nurture institutions outside the government (like producers' Co-operatives, Breeders associations, non-governmental organisations, voluntary organisation, other forms of people' bodies, enterprises and initiatives ; and private input and livestock product manufacturing companies), to generate quality breeding inputs and for delivery of breeding services at the farmers' door-step, on progressively self generating and economically viable basis.
- 3.5 Establish or assist in the establishment of breeding infrastructure like bovine frozen semen production stations, storage and distribution network, institutional farms for production and supply of genetically evaluated breeding stock, recording system for regional grids for genetic inputs, state/national data base and network communication system to enable state/region/nation wide sharing of breeding infrastructure and genetic inputs.
- 3.6 Modernize and upgrade existing training facilities, establish new training facilities where necessary and set in motion a comprehensive human resources development programme, enhancing skills and professional competence at all levels on a regular and continuing basis.
- 3.7 Establish collaboration and network arrangements with institutions of repute within the country as well as overseas to newer technologies and to upgrade skills, on all aspects of livestock production, livestock products product processing, storage, transport and merchandising.
- 3.8 Interact and collaborate with bilateral and international bodies to create infrastructure, set up joint ventures and joint projects in the area of livestock production, genetic improvement of the livestock populations, livestock product development, product processing and marketing.

  
Chief Executive Officer  
Assam Livestock Development Agency

- 3.9 Set up a quality assurance programme across the entire range of breeding inputs and breeding services for all species of economic importance in the livestock sector through standards for genetic inputs, good laboratory practice, good manufacturing practices, quality control procedures, hygiene and zoo-sanitary criteria.
- 3.10 Establish linkages with national and international research institutions, set up research project in appropriate areas priority wise and orchestrate a research support programme for livestock production enabling producers as well as institutions involved in production and development, constant access to the fruits of research – improved technology, newer technologies, emerging bio-techniques and management practices, all leading to improved efficiency and cost reduction.
- 3.11 Carry out studies and surveys on all aspects of livestock production, productivity and livestock products, generate information and data, leading to a dynamic data base and management information system for the growing, globalising Indian livestock industry.
- 3.12 Provide consultancy services to the livestock industry on all aspects of livestock production, livestock product development, processing and marketing.
- 3.13 Advise state government and local self governments on policies related to or having a bearing on the livestock sector, on both public and privately funded livestock development projects, livestock product processing and manufacturing projects, promotional measures and subsidies, regulatory measures and laws affecting the livestock sector and on taxation, levies and cess on livestock or livestock products.
- 3.14 Assist the national effort in conservation of bio-diversity and genetic resources and development and commercial exploitation of indigenous breeds of livestock of economic importance.
- 3.15 Promote and fund developmental activities and projects in the livestock sector.
- 3.16 Planning, designing and Construction of any livestock product processing plant or ancillary / associated plants and buildings, including civil works.
- 3.17 Planning, designing and execution of a state wide infrastructure for the bulk movement, distributed bulk storage and delivery of liquid nitrogen, as a support system for the Artificial Insemination system for the breeding of cattle and other species of livestock in the state.
- 3.18 Inspection or evaluation of any livestock project or installation, including all integrated services, such as procurement of raw material, transport, processing and distribution of raw material, transport, processing and distribution of livestock products.
- 3.19 Sponsor, promote, manage, set up, acquire, construct or install any plant or works which directly or indirectly promotes or advances projects of general public utility, relating to livestock production, livestock products, foods of livestock origin and to make, recommend, submit and draw plans, schemes and reports, for such projects and to provide for detailed implementation and execution of such projects.
- 3.20 Adopt and undertake any other measures or perform any other duties as may be required by the Government of India or by the State Government or a local self government or which the Agency may consider necessary or advisable in order to carry out any of the objects of the Agency.
- 3.21 Do all such other things either alone or in conjunction with others as the Agency may consider necessary, incidental or conducive to the achievement of the objects of the Agency.
